Importers, manufacturers and dealers of "destructive weapons" are licensed and regulated under Federal law. Under existing Delaware law, importers, manufacturers and dealers of destructive weapons are not permitted to deliver them to purchasers in Delaware who are otherwise permitted to own such weapons, such as military or police forces. This Bill will permit properly licensed importers, manufacturers and dealers to possess and store destructive weapons in this State and engage in activities associated with the sale and delivery of such weapons to (or from) qualified purchasers.

All other changes made by this Act are technical corrections to conform the existing law to the guidelines of the Delaware Legislative Drafting Manual.
