

# MEMORANDUM

Joint Legislative Oversight  
& Sunset Committee

April 6, 2022 - 2023 Review Sections & Instructions

## JLOSC SELECTS ENTITIES FOR 2023 REVIEW

The Joint Legislative Oversight and Sunset Committee (“JLOSC”) has selected the following 6 entities for legislative oversight and sunset review:

- Provider Advisory Board (DOE).
- Delaware State Arts Council (DOS).
- Tourism Advisory Board (DOS).
- State Fire Prevention Commission (FIRE).
- Delaware Byway Advisory Board (DeIDOT).
- Delaware Guardianship Commission (COURT).

JLOSC selected these reviews based on a list prepared by its staff which included a proactive list of boards and commissions never reviewed by JLOSC or related to agencies not heavily reviewed in the last decade. A legislative oversight and sunset review is a periodic, performance evaluation of an entity with the purpose of determining whether there is a public need for the entity and, if so, whether the entity is effectively performing to meet that need. Selection for this review is not indicative of any operational issues within the entity. Each state has similar processes in place for performance review or legislative oversight. The review mechanism aids in bringing strength and support to the entity under review that is found to be meeting a recognized state need. Reviews also offer an opportunity for the entity under review to ask the General Assembly for changes that require legislation. JLOSC staff is here to help during the review process.
