HOUSE OF REPRESENTATIVES 150th GENERAL ASSEMBLY

HOUSE BILL NO. 140

AN ACT TO AMEND TITLE 16 OF THE DELAWARE CODE RELATING TO END OF LIFE OPTIONS.

1	WHEREAS, Delaware has long recognized that adult, terminally ill individuals have a fundamental right to
2	determine their own medical treatment options as they near the end of life, free from coercion, and in accordance with their
3	own values, beliefs, or personal preferences; and
4	WHEREAS, Delaware wants to promote both the highest standard of medical care for patients and a wide range or
5	options appropriate for each individual at the end of life; and
6	WHEREAS, the integration of medical aid in dying into the standard for end-of-life care has improved quality or
7	services by providing an additional palliative care option to terminally ill individuals.
8	WHEREAS, terminally ill patients may undergo unremitting pain, discomfort, and a sudden, continuing, and
9	irreversible reduction in their quality of life in their final days and only the patient can determine if his or her suffering is
10	unbearable; and
11	WHEREAS, participation in the practice of medical aid in dying by willing medical providers for terminally il
12	patients who request this end-of-life option, respects and honors patients' values and priorities for their own death, and puts
13	the patient at the center of care.
14	NOW, THEREFORE:
15	BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF DELAWARE:
16	Section 1. Amend Chapter 25, Title 16 of the Delaware Code by making deletions as shown by strike through and

72	(b) An attending physician must provide sufficient information to an individual with a terminal illness regarding

74	make an independent decision regarding the individual's end-of-life health care.
75	(c) An attending physician's failure to inform an individual with a terminal illness who requests additional
76	information about available end-of-life treatments, including medication to end their life in a humane and dignified manner,

SYNOPSIS

This Act permits a terminally ill individual who is an adult resident of Delaware to request and self-administer medication to end the individual's life in a humane and dignified manner if both the individual's attending physician and a consulting physician agree on the individual's diagnosis and prognosis and believe the individual has decision-making capacity, is making an informed decision, and is acting voluntarily.

This Act uses terms and definitions that are consistent with other Delaware laws in Title 16, specifically Chapter 25 (regarding advance health-care directives) and Chapter 25A (regarding Delaware Medical Orders for Scope of Treatment).

This Act also provides the following procedural safeguards:

- 1. No one may request medication to end life on behalf of another individual.
- 2. An individual cannot qualify for medication to end life under this chapter solely because of the individual's age or disability.
- 3. Both the individual's attending physician and a consulting physician must confirm that the individual has a terminal illness and a prognosis of 6 months or less to live, has decision-making capacity, is making an informed decision, and is acting voluntarily.
- 4. The individual's attending physician must also provide specific disclosures to the individual to ensure that the individual is making an informed decision, including the presentation of all end of life options which include comfort care, hospice care, and pain control.
- 5. The individual must be evaluated by a psychiatrist or a psychologist if either the attending or consulting physicians are concerned that the individual lacks decision-making capacity.
- 6. The individual must complete a witnessed form requesting medication to end life and there are limitations on who can witness the signing of the form.
- 7. The attending physician must offer the individual the opportunity to rescind the request for medication to end life before writing a prescription for the medication.
 - 8. Two waiting periods must pass before the attending physician may prescribe the medication to end life.
- 9. An insurer or health-care provider may not deny or alter healthcare benefits otherwise available to an individual based upon the availability of medication to end life or otherwise coerce or require a request for medication to end life as a condition of receiving care.
- 10. A health-care institution may prohibit a physician from prescribing medication to end life on the health-care institution's premises.
- 11. The cause of death for an individual who self-administers medication under this Act must be listed as the underlying terminal condition and a request or prescription for or the dispensing of medication under this Act does not constitute a suicide, assisted-suicide, homicide, or euthanasia.
- 12. People acting in good faith and in accordance with generally accepted health-care standards under this Act have immunity, but those acting with negligence, recklessness, or intentional misconduct do not have criminal or civil immunity.
- 13. The Department of Health and Social Services must develop rules and regulations to collect information regarding compliance with this Act, complete an annual statistical report of information collected under this Act, and may review samples of records maintained under this Act.

This Act is known as "The Ron Silverio/Heather Block End of Life Options Law" in memory of Ron Silverio at Heather Block, who were passionate advocates that passed away without this option becoming available to them.
