115           This chapter modifies, limits, or supersedes the federal Electronic Signatures in Global and National Commerce  
116           Act, 15 U.S.C. § 7001, et seq., but does not modify, limit, or supersede § 101(c) of that act, 15 U.S.C. § 7001(c), or

#### SYNOPSIS

Recognizing that an increasing percentage of people's lives are being conducted online and that this has posed challenges after a person dies or becomes incapacitated, this Act specifically authorizes fiduciaries to access and control the digital assets and digital accounts of an incapacitated person, principal under a personal power of attorney, decedents or settlors, and beneficiaries of trusts. The Act should be construed liberally to allow such access and control, especially when expressly provided for in a written instrument. Section 1 creates a new Chapter 50 in Title 12 to contain the Act itself while Sections 2 through 4 amend existing statutes pertaining to personal powers of attorney, guardianships, and trustee powers to include the authority permitted under Section 1.
